[redacted]

[redacted]-1951-62

25X1 [redacted]: OTR/JOT?

[redacted]:

25X1 [redacted]: Chief, Personnel Management Committee

[redacted]: JOT Candidate - [redacted]

1. On several occasions, this Division has informed the JOT Office of our interest in JOT's who possess a background in military aviation as either a pilot or a navigator.

25X1 2. [redacted], of the JOT Office, recently sent in the attached file on a young man whose background seems to make him admirably suited for assignment to the Air Support Branch of this Division. There is one problem to be resolved, however. 25X1 [redacted] is somewhat older, and better qualified by education and experience for Agency employment than the usual JOT. He is therefore requesting a higher 25X1 beginning salary than is usually offered to JOT's by the JOT Office. [redacted] is asking for a GS-9 whereas most JOT's begin their Agency careers at the GS-7 level.

3. In view of this fact, the JOT Office would like a commitment from the Division that a position will be available for the 25X1 assignment of [redacted] as soon as he finishes his training instead of encumbering an Office of Training position for a year as is the case with the usual JOT candidate.

4. The DPM will be dissolved in the not-to-distant future with part being assigned to the new DD/A and the other part remaining with the DD/P to be incorporated into a new Division. As far as we know now, the Air Support Branch will be one of three branches in the new Division and will have essentially the same structure and positions as it has now. On this basis, the Air Support Branch is prepared to 25X1 state that a position will be held for [redacted] and that he will be accepted upon satisfactory completion of his training course in early 1963.
